### Dementia Information Prescription

[www.dementiaweb.org.uk](http://www.dementiaweb.org.uk)

There are many things to think about when you are affected by dementia, be it as a person who has been diagnosed or as a family member or supporter/carer.

Above all, in Bristol, we want you to feel able to continue to do the things that have been important to you or that you have always enjoyed, maintaining friendships and wider networks; being involved in your local community and accessing local amenities. We recognise though, that for some people, and at different stages of the illness, this may be difficult to do without some kind of support.

The **Dementia Information Prescription** is a list of key services and contact details for organisations in Bristol where you may be able to access more information and support. Most of these are listed because they provide general activities or support that may be useful to you, but some (highlighted ★) offer dementia-specific support which may become helpful in the later stages. Of course, everyone's life and experience of dementia is unique, so you may not need all the information (or sections) in the list.

The Bristol list is updated every three months, so to get a new copy please contact the helpline or write to us at **Dementia Helpline, Willow Tree House, Station Lane, Witney, Oxfordshire, OX28 4BH**. We can also create an information prescription localised to your postcode and personalised to your own individual requirements: there is no charge for this.

If you would like to discuss any of this information or you need any further help please do not hesitate to contact the **24 hour dementia helpline** on **0845 120 4048**.
